

MANAGEMENT POLICY

POLICY NUMBER:
100

SUBJECT:

Introduction

EFFECTIVE DATE:
12/22/2009
REVISED DATE:

I. Purpose

The Rio Verde Fire District accomplishes its Mission through members working together to achieve common goals. Organizational success depends on individual members sharing a common vision in order to achieve desired outcomes. The intent of this Policy Manual is to help members understand the Fire District organization and empower them to carry out the mission.

II. Scope

The policies set forth are not intended to create a contract, nor are they to be construed to constitute contractual obligations of any kind or a contract between the Fire District and any of its employees.

This Manual is intended to provide an effective framework for the orderly and proper operation of the Fire District and will help members understand how to function within the organization through the use of standardized policies and procedures. It is not designed or intended to limit any member in the exercise of good judgment or initiative in taking any action that a reasonable person would take in the extraordinary situations. Rather, this Manual is intended to provide effective and meaningful direction for the overall operation of the Fire District.

It will be the responsibility of each member to thoroughly read and become familiar with this Policy Manual. In the event that a member needs clarification of any part of these texts, he/she should seek answers through the chain-of-command. The Rio Verde Fire District encourages members to make recommendations that may improve the operation of the Fire District, through proper channels. Please take great pride in your contribution toward the efficient and safe operation of the Rio Verde Fire District.

This Policy Manual may be amended by action of the Rio Verde Fire District Board.
